A. E. KUNDERD

Operates His Own Retail Business With a
WONDERFUL SELECTION OF BULBS

THREE GENERATIONS OF KUNDERDS

A.E. D. PAUL J. WAYNE ROBERT J.

A. E. Kunderd is my father. His life was spent developing gladioli strains that are now known in all parts of the civilized world as his creations. The enormous business which grew up under his careful efforts always to satisfy his customers, is now out of his control. Therefore, I am not in a business opposed to him.

I am very sorry that so many of my friends and customers think that I have **continued** with my father's former business. During the worst of the depression he **completely lost** his large fine business which was his life's work, and the new management discharged me. I would like everyone to know it. This is the reason that I have gone in business for myself, absolutely on my own with some of the finest varieties and bulbs. This new management also let my father out. He has had nothing to do with the management of his former business for more than five years.

SECOND GENERATION OF KUNDERDS IN GLADIOLUS BUSINESS

With my knowledge of Gladioli and the help of my good wife and two fine boys, we are building up a business of our own under my own name.

Beginning as a small boy at the age of seven, helping my father in the fields, it became second nature for me to compare the qualities of the blossoms and bulbs, and from the many hundreds of varieties that I have handled during my lifetime, I found I was mentally forming standards that I would some day use if I ever started my own gladiolus business. Years ago I began my own private record books and every season I have closely checked the varieties that I favored and which were the favorites of the many hundreds of visitors to my father's Gladioli fields. Sometimes it was hard to discard pet glads when better varieties were developed to take their place. But I had set my goal at approximately 150 gladioli varieties that would equal or surpass anything in the gladiolus world.

Another idea which developed in my mind over a period of years was that the majority of gladioli lovers were people in ordinary circumstances like myself and it certainly was a pity to keep such beautiful flowers out of the reach of these men and women. This is my reason for pricing the finest at from 5c to 15c per bulb. I have had lots of opposition to my plan, but have decided to go through with it and prove that I am right. I believe that I can conduct a successful business by giving my customers varieties that come up to my own critical standards at prices well within the reach of everybody.

I grow no gladioli mixtures because there are varieties that **produce more abundantly** than others, thereby making **unbalanced mixtures**—too many of one kind and not enough of other varieties. At my low prices for named kinds, you may order what you want and know what you are getting. I have always thought that buying field grown mixtures was like buying a cat in a sack or something sight unseen.

Every order will receive a full measure of personal interest so as to be sure that each customer receives all that is expected and more. Many other things that will help serve the customer in the best way possible are constantly kept in mind.

Twenty-eight years of actual experience in the growing of gladioli for my father, A. E. Kunderd, Goshen, Indiana, and five years growing gladioli for myself, puts me in a position to intelligently take care of the gladioli needs of my customers.

If you want your flower loving friends to have my 1939 catalog, kindly send me their names and addresses.

Should you receive a duplicate of my 1939 catalog, please pass it on to a friend.

PICARDY—A most sensational flower of delicate apricot-pink. Florets are all extremely large, slightly ruffled and of heavy wax-like substance.
10c each; 3 for 25c; 6 for 45c; 12 for 85c

RED PHIPPS—Unusual color, really a pink overlaid scarlet. Strikingly beautiful.
10c each; 3 for 25c; 6 for 45c; 12 for 85c

STAR OF BETHLEHEM—Very large creamy white. A lovely flower, 6 to 8 florets of good substance open at a time.
15c each

VEILCHENBLAU—The color is a beautiful violet-blue, lightening toward the center. The entire flower appears at the first glance to be made of blue velvet, the sheen is most beautiful.
10c each; 3 for 25c; 6 for 45c; 12 for 85c

WASAGA—Beautiful clear glowing buff with wide-open ruffled blooms.
10c each; 3 for 25c; 6 for 45c; 12 for 85c

WURTENBERGIA—Immense fiery scarlet with cream white throat.
10c each; 3 for 25c; 6 for 45c; 12 for 85c

ROBERT J. KUNDERD GLADIOLUS FARM

The Finest Collections Offered and at Such Low Prices

The day I was discharged from my life's work—through no fault of mine—I said, in exchange for being discharged I would give the gladioli flower-loving public some real quality and prices. This is the reason that I am giving such wonderful bargains. These collections are not competitive and quantity offers—but quality and superior collections.

Here are some of the best collections I have ever offered and at such interesting prices.

Now is your chance to get a good number of choice gladioli in many beautiful colors ranging from delicate white to blazing red. Fill that vacant space in your garden with glorious glads that will be the envy of all who see them.

These collections are composed of named kinds only, and are made up out of my regular gladioli stock. I grow no mixtures, being very much against field grown mixtures.

You will not be buying “scrap” glads in any of my collections for I keep my stocks carefully selected, so that my customers will receive only the best, whether in collections or in straight orders.

The glad bulbs I grow are HAND planted—HAND dug—and HAND cleaned! You are assured of well groomed bulbs of fine varieties of highest quality—varieties that have proven their popularity and favor with thousands of glad fanciers.

Bargains That Fit Your Pocketbook

A customer that is pleased with my bulbs and service is the best “ad” that I could ever hope to get. It is my ambition to produce gladioli from only choice varieties, true to name, with high quality bulbs at prices low enough to meet the gladiolus needs of the average person.

After carefully figuring my production costs, order filling expense, etc., I find that if I use some of my spare time before the order filling rush begins in the spring, in making up and labeling these superior collections, selected from some of my best varieties, so as to have them ready for mailing without any further cost, I can save a large part of my labor expense. I am passing this saving on direct to you, because the more you can save, the more bulbs you can afford to buy, and every bulb I ship is a silent salesman for me.

Those of you who delay ordering might find that my superior collections have run out on some varieties. In such cases, I shall replace them with other varieties of the same price and as nearly as possible the same color. Please keep in mind that there can be NO CHANGES IN THE COLLECTIONS because that will cause extra work and add to my expense. This cannot be allowed at such prices, so please do not ask me to substitute other varieties.

A New Kunderd Service

To the thousands of Kunderd customers who love the beautiful gladioli, I now offer a parallel in the poultry field—a nationally known strain of Black Minorca Chicks, a breed that is just as adaptable to the city lot as to the larger country places.

These Black Minorca Chicks are produced from Stained Antigen Method Pullorum Blood Tested Parent stock, and are hatched in the largest type electrically operated automatic hatchers producing chicks that are healthier, larger, stronger and of greater weight than ever before.

I offer two types of Black Minorcas. The most common is the Utility Commercial type which are the “Leghorns” of the Minorca breed. This type is a medium sized fowl, maturing early, producing a light colored meat, and is a prolific layer of beautiful large white eggs.

The Exhibition type Monarch Black Minorca is a beautiful fowl attaining mammoth size and carrying a striking green sheen on the coal black feathers. Although maturing more slowly, this type bird will also lay large white eggs, and produce a large carcass with an unusually large breast that will add grace to any table. If you want the envy of your friends and neighbors, just raise a few of these Exhibitors Monarch Black Minorca Chicks early, show them at your local or neighboring city fair and enjoy the thrill of producing winners. A recent showing of less than a dozen birds stole an entire poultry show of over 1000 birds by taking all top prizes in its class, producing two grand championships out of five.
